Paper, Framer, Illustrator, Photoshop,
Jitter, GSAP, p5.js, React, Whimsical,
Convertkit, Midjourney, Poke,
Agentation, Replit, Github

SIDE PROJECTS

[Vuln. Report Generator](#)
[WebGL Brand Image Generator](#)
[PCB Styliser](#)
[3D Gaussian Image Splatter using SHARP Model](#)
[Get Monké-d](#)

COMMUNITY

DARTS | Head of Arts
Lead a team of 50+ members to
organise the annual tech festival of
SASTRA - Daksh

Notion Chennai | Volunteer

EXPERIENCE

QuillAudits | UI/UX Designer
May 2024 - Present

Brand Revamp: Led the end-to-end redesign of the QuillAudits ecosystem across product, web, marketing, and design systems

Cross-Functional Collaboration: Worked closely with management, audit, marketing, and project teams to simplify complex Web3 security workflows into intuitive experiences

Website Optimization: Redesigned the website and sales funnel, contributing to a 3X increase in visitors and 25% growth in user engagement

Performance Engineering: Improved website performance from 62% to 83% by replacing heavy 3D assets with optimized SVGs and GSAP-based animations

Product Design: Designed Audit Leaderboard and QuillMonitor, while contributing to QuillShield, QuillGuard, and QuillCheck

Design Systems: Built scalable component systems, managed developer handoffs, and implemented production-ready animations in code

Bluethroat Labs | Founding Designer
Feb 2026 - Apr 2026

Brand Identity: Built the Bluethroat Labs brand from scratch across logo, website, visual systems, reports, decks, and social media in close collaboration with the founder

Design Systems: Created scalable design systems and collaborated with developers through coded prototypes and developer handoffs

Internal Tooling: Developed internal tools including a WebGL-based image styling system and a Puppeteer-based report generator

Brand Presence: Established branded social media systems and internal design workflows across platforms
